2. The following is an examiner's statement of reasons for allowance: The closest prior art of record is Niels J. van der Veen et al(J. Am chem.. Soc., 2000). The reference on page 6112 Fig 1, and scheme 1, teaches structurally similar compounds, but is different than claimed herein, with respect to chain functional group and hydrogen bonding site. One of ordinary skill in the art at the time the invention was made would not be able to arrive at the claimed compounds using the prior art of record.

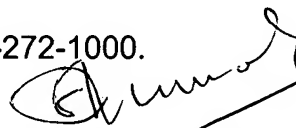

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
